

XM's Traffic and Weather has saved me time and money more than once!! I drive a big rig for a living, and where major cities are concerned, I have found detours through gridlock, be it an accident or just rush hour traffic, that I had heard on XM even before the "traffic every 8 minutes" joke comes on. So if you have any common sense, you will stop the NAB in their tracks, and the sooner the better. I pay for this service, and it is the best thing ever.
